Miris je iznimno bogat, cvjetni i voćni tonovi te slatki začini. Ima profinjen i lijep razvoj meda, vanilije i hrastovine. <p>MALVAZIJA MONTIRON, MEDEA</p> <p>Vinograda starih gotovo 40 godina. Vinarija Medea donosi priču koja nas uči da je malvazija itekako pogodna za odležavanje. Ovdje je riječ o grand cru poziciji vinograda u blizini Šišana. Zasađena loza, gustoće tek oko tri tisuće loza po hektaru, starog je biotipa. Ona ovdje raste na crvenici bogatog slojevitog kamena, dajući vinu prepoznatljivu mineralnost kroz optimalnu zrelost grožđa. Ima svježinu i pitkost mladih malvazija, ali i pruža ozbiljnost onih dugo odležanih. Dijelom je to rezultat starosti vinograda, dijelom odležavanjem u barrique bačvama. A dijelom i činjenicom da je svaki grozd ručno bran i obrađen.</p> <p>Medea Winery tells the story of a nearly 40-year-old vineyard located at the very south of the peninsula where a Malvasia very much fit for aging is grown.</p> <p>The vineyard occupies a grand cru position near Šišan. The grapevines here are of an old biotype, planted at a density of only about three thousand vines per hectare. They grow on terra rossa soil which is rich in layered stone, giving the wine a recognizable minerality which is expressed through the optimal ripeness of the grapes. Montiron retains the freshness and lightness of a young Malvasia while providing the seriousness of one that has been aged for a long time. This is partly because of the age of the vineyards, and partly because it is aged in barrique barrels. And in part because each bunch of grapes is picked and processed by hand.</p>	50€ (376,73kn)	10,67€ (80,37kn)	 	<p>Naša preporuka je uvijek Montiron, Medea Montiron</p> <p>Our recommendation will always be Montiron, Medea Montiron</p>

<p>MERLOT PUNTA GRECA, MEDEA</p> <p>Kako bi se u potpunosti razumjelo Punta Greca, nužno je vidjeti njenu lokaciju. Riječ je o položaju kao stvorenom za vrhunsko vino. Vinograd veličine 3,4 hektara smješten je pored Ližnjana, na spektakularnom rtu Punta Grkova na Marleri. Vinograd je ovdje okružen morem sa svoje tri strane. Riječ je ujedno i o najjužnijem vinogradu Istre. Punta Greca se ne proizvodi u svakom godištu. Vremenski uvjeti nažalost to ne dopuštaju te su ponekad i vrlo ekstremni za vinograde. Loza je ovdje izravno izložena vjetrovima, posolici i cjelodnevnom suncu. No, upravo je zato riječ o posebnom vinogradu i posebnom vinu. Inače, malo je poznato da ovaj dio svijeta više od stoljeća i pol njeguje merlot. Naš merlot Punta Greca je odležavan u drvu 18 do 24 mjeseci, a potom punjen u burgundijske butelje bez filtracije. Svaka je boca numerirana. Punta Greca je izuzetno vino terroira, jedinstvene kompozicije tla, crvenice i pijeska s vrlo izraženim sastavom gline.</p> <p>In order to fully understand Punta Greca, it is necessary to see the location it comes from. It is as if it were created for a premium wine. The 3.4-hectare vineyard is located next to Ližnjan, on the spectacular Cape Punta Grkova on Marlera. It is surrounded by the sea on three sides. It is also Istria's southernmost vineyard. Punta Greca is not produced every year. Unfortunately, the weather conditions – sometimes very extreme for a vineyard – do not allow for it. The grapevines are directly exposed to the wind, salt sediments, and daily sunshine. But that is precisely why it is a special vineyard and a special wine. Not many know that this part of the world has been cultivating Merlot for more than a century and a half. This wine was aged in wood for 18 to 24 months and then filled into Burgundy bottles without filtration. Each bottle is numbered. Punta Greca is an exceptional terroir wine. Together with a strong prevalence of clay particles, the red soil and sand, vineyard is exposed all day long to winds on both sides of the peninsula giving them a unique character.</p>	120€ (904,14kn)	24,67€ (185,85kn)		<p>Vinogradi Punta Grece, najljepši vinogradi Istre</p> <p>Most amazing vinyard in Istria</p>

U Vinogradu kao i u podrumu volimo spojiti staro i novo, te vjerujemo da vino nije remek djelo čovjeka već prirode. Misija nam je stvoriti vino sa jasnim regionalnim identitetom sa minimalnom intervencijom u podrumu odnosno u vinogradu. Jedno od naših dragulja je CHARDONNAY rađen Sur lie metodom. Baršunasta tekstura i nježne tostirane note čine ovo vino elegantnim i nadasve užitnim. Slamnato žute je boje. Na nepcu je bogato i blago začinjeno a savršeno izbalansirane kiseline pružaju mu dugotrajan završetak.</p> <p>Winery Stručić is a family boutique winery from Ludbreg, whose story begins in 2002. <p>ŽILAVKA, BRKIĆ</p> <p>Nježno, cvjetno i herbalno. Jedinstvena aromatska obilježja podneblja Hercegovine. Čaj od ljekovitih trava, fina senzacija minerala, intenzitet i arome koji se izmjenjuju, svjedočanstvo kompleksnosti i kod „bazne“ žilavke iz podruma Brkić. Za mekoću poželjno je ovo vino pustiti da se malo ugrije u čaši, da se organski materijal iz vinograda prezentira u svojoj punoj ljepoti. Svježja Žilavka, Brkić nastala je na način da joj je hladena bačva od inoxa, gdje se stvarala i tim je ona zbog hladnijih uvjeta sačuvala više mirisa, voćnosti i svježine.</p> <p>This is „basic“ Žilavka from Brkić winery, a fresh Žilavka-Brkić, which is made in the way that we cooled an inox barrel for it, and there it was made. Because of cooler conditions it preserves more scents, fruity taste and freshness.</p>	51€ (384,26kn)	10,87€ (81,88kn)		<p>Kada Brkići prave i baznu Žilavku, ona nikada neće biti samo „bazna“, oni to ne mogu. Oni stvaraju uvijek više i bolje. Divni su. Brkić family doesn't know to produce a wine that will be „just“ or „simple“ or „nothing complicated“ they know to produce only good wines that you need to try.</p>

Ima odličan potencijal za boju, dobro strukturirane tanine te fine voćne arome. Urod joj je dobar i siguran. Neistraženi je enološki potencijal, iako na tržištu u posljednjih godina ima nekoliko proizvođača koji stavljaju na tržište monosortno vino trnjaka, Vinarija Čitluka sa svojom linijom Teuta je htjela odati počast ovoj zahvalnoj sorti. Začinske arome, klinčić, vanilija i cimet, potom zrele arome ribiza, maline, višnje i pekmeza od šljiva. Vrtnjom čaše izviru herbalne note i ponovo obilje začinskih.</p> <p>Herzegovina area, Mostar wine yards (Dubrava, Međugorje). Terra rossa on limestone. Trnjak 100% is indigenous variety. Handpicked. <p>BLATINA, KRŠ CRNI, ŠKEGRO</p> <p>Krš Crni nastaje od 85% blatine. Profil upotpunjuje alicante bouschet kojem pripisujemo, između ostaloga, fascinantnu dubine ljubičasto - rubinske boje koja odolijeva vremenu. U ekspresiji voćnosti kojom dobra blatina obiluje zasigurno pomaže gamay. Vrlo promišljeno oblikovano vino u kojem blatina lakše pokazuje svoj karakter. Vremenom ovo vino dobiva zemljane note koje se vrlo često dovodi u vezu s ovom sortom. Iznenadujuće svjež za crno vino, pogodna je za dugo odležavanje, naglašeno je voćna, a vremenom se mijenja na vrlo lijep način uvijek zadržavajući snažnu strukturu.</p> <p>Krš Crni is made from 85% of blatina. The profile is complemented by the alicante bouschet to which we attribute, among other things, the fascinating depth of the purple-ruby colour that withstands the test of time. Gamay certainly contributes to the expression of fruitiness, which is abundant in a quality blatina wine. A very thoughtfully designed wine in which blatina easily shows its character. Over time, this wine expresses earthy notes that are often associated with this variety. Surprisingly fresh for a red wine, it is suitable for long aging, very fruity, and changes over time for the better, always maintaining a strong texture.</p>	<p>44€ (331,52kn)</p>	<p>9,47€ (71,33kn)</p>		<p>Dobro vino. <p>BLATINA VIONICA, RUBIS</p> <p>Bistro, srednje ljubičasto vino, umjerenog alkoholnog intenziteta koje se postepeno razvija. Sadrži arome crnog ribizla, borovnice, šljive i trešnje. Suho vino srednje kiselosti, te srednje jačine, s umjerenim udjelom tanina i blago bogatim doživljajem okusa. Nakon maceracije ide otakanje mošta, jedan dio vina ide u inox posude dok drugi dio ide u hrastove barique bačvice od najfinijeg francuskog hrasta. Razlog zašto vino odležava u kombinaciji drvo i inox je taj da ne žele previše dima i drveta na nepcu prilikom kušanja ovog vina, žele prvi red staviti izuzetna svojstva aromatičke voćna, a tek u pozadini da se osjeti drvo.</p> <p>Wine of supreme quality with geographic origin. Boja bobice je crvena, a bobica je duguljasta. Urod je visok, sadržaj šećera srednji, a ukupne kiseline srednje do više. Pošip crni je neistraženi enološki potencijal. <p>ROSE, MERGA VICTA</p> <p>U središtu otoka Korčule ribnjaci slatke vode koji napajaju vinograde sela Smokvica izuzetan su dar prirode. Lokalno stanovništvo ovo mjesto naziva "Merga Victa", što na starodalmatinskom dijalektu znači "staza za vodu". Vinogradi se nalaze na rubu Smokvice, rodnog mjesta Pošipa. Mještani su zasadili autohtone sorte vinove loze na terasastim poljima isklesanim u stjenovitim obroncima, napajanim vodom iz potoka. Današnji vinari većinu posla obavljaju ručno, baš kao i njihovi preci.</p> <p>In the center of the island of Korčula, the freshwater ponds that feed the vineyards of the village of Smokvica are a remarkable gift of nature. Local people call this place "Merga Victa," meaning "path for water" in old Dalmatian dialect. Vineyards are located on the outskirts of Smokvica, the birthplace of Pošip. Local people have planted indigenous grape varieties on terraced fields carved out of rocky hillsides, fed by the water from the streams. Today's winemakers do most of their work by hand, just like their ancestors.</p>	<p>46€ (346,59kn)</p>	<p>9,87€ (74,34kn)</p>
